

SCREEN  
GREEN™

Projection screen  
materials receive  
GREENGUARD®  
Certification.

With the certification of all front and rear projection screen fabrics, Da-Lite Screen Company takes the lead in low emitting products and materials under the standards of the GREENGUARD® Environmental Institute. GREENGUARD® has issued this certification under their certification number 90068.

In addition to the GREENGUARD® Indoor Air Quality Certification, the Institute has also certified these fabrics for their GREENGUARD® Children and Schools program under certification numbers 90068-01 through 90068-26. The GREENGUARD® Certification Program uses performance based, field validated standards to define products and materials with low chemical and particle emissions for use indoors. GREENGUARD® requires products to be tested on an annual basis for over 2,000 individual volatile organic compounds (VOCs).

Specify Da-Lite front or rear projection screens for your next project. You will not only be using environmentally friendly screen fabrics, you will be using GREENGUARD® Certified Da-Lite fabrics that are recommended by leading sustainable building programs, including; U.S. Green Building Council's LEED Rating System, NAHB Green Building Guidelines, Canada Green Building Council, United Kingdom Green Building Council, Green Guide for Health Care and the Collaborative for High Performance Schools Best Practices Manual.
